Products			

**Directions for use:**

These essential body products are developed to be used 2 or 3 a week, depending on the areas to be treated, or all over the body. It is recommended to apply the Exfoliating Body Scrub prior to the Moisturizing\* Body Lotion or the Draining Massage Oil. Apply the necessary quantity of the product, then massage with light circular motions to favor the blood flow as to release actives.

*\*Upper layers of the epidermis*
